MEET THE PROS

NATHAN AND LISA

We love making strangers cry.
And we're very good at it.

We pride ourselves in capturing all the intricate moments of your day, especially the ones you may blink and miss. We are very discreet and we believe in capturing these moments naturally, which gives us a very organic feel that separates us from many of our fellow filmmakers.

We want you and your loved ones to relive your wedding day in a way no other medium can provide. We strive to capture every meticulous detail and special moment in the most inconspicuous way, while you relish the moment.

Memory can fade and pictures don't always tell the whole story or capture every tiny emotion. With Winter & Rain Films at the helm, you'll be reliving those memories as if you were there all over again.

Video is truly unique and it's an experience you do not want to miss and we hope our films speak for themselves.

We love what we do and we'd love to make something meaningful for you

You have found your dream team!

HOW IT WORKS

01 BOOK YOUR PHOTO COVERAGE

Choose a package that fits all your needs, Maria from Rise and Roam Photography will send a proposal for your approval, then you are ready to sign the contract and place the first payment, that will secure your date on her calendar.

02 BOOK YOUR VIDEO COVERAGE

Choose a video to add onto any photo package, get in touch with Nathan and Lisa to dive in further and save your date on their calendar.

03 TRUST YOUR TEAM!

We will capture your wedding day as it unfolds through video and photo, keeping it fun, stress-free and completely beautiful. Photo and video are delivered separately, according to the terms of each contract.

What can we expect to invest in Winter & Rain Films?

We have created special rates to bundle our video packages with Rise and Roam photography collections. Our beloved *Classic* add-on is a great place to start and contains many of the features that our couples love. We also offer a mini add-on, *The Micro*, for those who aren't looking to add all of the bells and whistles. This is a great option for those who are simply looking for a wonderful summary of the day.

What style do you consider your wedding films?

It's hard to define our films, as we believe they speak for themselves. Our films have feeling and emotion. We love a meticulously crafted and intimate story that is visually surrounded by artistic and cinematic filmmaking. We love to create an heirloom film that best reflects the *vibe of your day*. We like to experience your special day firsthand and then fit your film together like a big emotional puzzle and come up with a *visual story that truly encapsulates you and your day*.

How much input do we have in our film(s)?

This is *YOUR* wedding film and a keepsake that you and your spouse will hopefully cherish the rest of your lives. We want you to be completely happy with what we create - *that's why you hire us*. But let's be completely real with each other - we are creatives and we know how to create a piece of art that you will be proud of - *that's why you hire us*. So, while we will gladly take into consideration any minor requests or input you may have, we also hope that you will *trust us to do what we do best* and deliver a film that will blow you away! We love what we do and we believe you will be happy with the end result no matter what.

When will our wedding film be ready?

We pride ourselves with quick turnaround, but in the peak of wedding season, we play it safe in case of backlog. We ask that you kindly allow up to *16 weeks* for us to complete your film. Most likely, it will be sooner, but we always want to be overly cautious more than overly ambitious.

How do you deliver the films?

We deliver your full collection on a private, online gallery called VidFlow. This makes it easy to download, view, and share with family and friends.

“

You can expect a seamless experience from both our teams. We will combine our artistry to create an experience of a lifetime that can be replayed every time you see your wedding day memories
